*The sum of the numbers of persons by exemption/referral status is greater than the total number of persons because the count of persons is duplicated in Ramsey County when the status changes during the month.

**The "exempt from referral" counts are slightly inflated. Some persons and payments included here should be included with those "referred to Job Services but not MEED".

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third-party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

TECHNICAL NOTES

Table I — Application activity for the AFDC Program does not include applications for medical only needs.

Table II — Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program.

Table III — This table does not include cases and payments made under the Emergency Assistance Program.

Tables V & VI — Medical Assistance - The program is broken into two components:

(1) Those recipients who had a vendor payment made in their behalf and are not concurrently receiving a money payment (the MA-Only group).

(2) Those recipients who are concurrently receiving a money payment (AFDC, SSI, MSA) and a medical vendor payment was also made in their behalf.

The counts are of people in whose behalf a payment was made out of the State's Centralized Medical Payments System during the month specified.

GLOSSARY

AFDC-UB	AFDC UB . . . An unborn child is included under the definition of child in the AFDC Program and grants are determined accordingly. For this reason, we have counted them as recipients. It is possible for a case which is currently receiving money under another subprogram (such as Unemployed Father or Regular AFDC) to receive an additional amount due to the presence of an unborn child. In instances such as this, the unborn will appear in the child count, but there will be no case or caretaker count since they are carried under the other subprogram.

PROGRAM NOTES

Aid to Families with Dependent Children (AFDC) May normally marks a trend reversal from the increased costs and activity associated with the winter and early spring months. Maintenance payments in May fell to $18,943,558, a decline of $1,625,493 (7.9%) over April 1984. Major factors involved in decreased costs were a rise in IV-D refunds of $1,193,408 and a reduction of 900 (-1.8%) in cases paid. The decrease in paid cases was divided almost evenly between Regular and Unemployed Parent. Unemployed Parents dropped 430 (-5.3%) cases and the Regular segment 470 (-1.1%). All county types recorded fewer cases in both segments as the following chart indicates.

	Regular	Unemployed Parent
Urban	-209 (-0.9%)	-113 (-3.2%)
Suburban	-128 (-1.6%)	- 83 (-6.1%)
Rural	-133 (-1.0%)	-234 (-7.3%)
Total	-470 (-1.1%)	-430 (-5.3%)

IV-D refunds totalled $3,624,077, an increase of $1,193,408 (49.1%) over April 1984 and a $1,776,502 (96.2%) rise above March 1984. IV-D refunds are affected by Project Intercept, a federal income tax refund interception process which allows support payments in arrears to be deducted from federal tax refunds. The impact of this program is strongly felt in April and especially May.

Emergency Assistance (EA) The program advanced during May with expenditures outstripping case load growth by a wide margin (20.8% vs. 4.9%). Most of this growth was in the AFDC segment, whose families totalled 740 for a growth of 37 (5.3%).

The emergency category of Utilities, which was so influential last month, continued to affect the program during May by serving 511 families at a cost of $268,282. This constitutes an increase of 34 families (7.1%) and $74,554 (38.5%) within the emergency, thereby accounting for 73.9% of the monthly case load growth and 94.1% of the payment advance.

The growth of this emergency was broadly based, occurring in the urban $74,816 (65.0%) and suburban $6,998 (25.9%) counties. The rural counties, by contrast, displayed a mixed pattern by advancing $4,151 (23.5%) within the AFDC segment while declining $11,410 (33.6%) in assistance provided to non-AFDC recipients.

Ramsey county was the most influential of the urban counties within the category of Utilities, expending $129,269 for a monthly increase of $48,107 (59.3%). Of this, $43,808 (91.1%) was AFDC related.

May's expenditure of $459,272 exceeded the previous month by $79,187 (20.8%) and is the highest recorded since May 1981 when 1,482 families were aided at a cost of $443,115. The May total, however, remains under the $502,040 expended in October 1980.

Minnesota Supplemental Aid (MSA) The May pattern was one of increase, with recipients advancing by 50 to 10,161 and expenditures setting a new record by posting over 1.2 million dollars.

The recipient change was mixed, with the growth being induced by the Disabled category, which advanced by 85 (1.2%) to 7,466. This, however, was moderated by the Aged category, whose recipient level declined to 2,538 for a loss of 40 (1.6%). The major contributor to the Disabled change was Hennepin County,. which posted 44 more recipients than the previous month. This growth occurred because of more Current (+22) and Initial (+13) cases.

Expenditures for May totalled $1,207,443, which was a monthly gain of $29,763 (2.5%). Besides setting a monthly expenditure record, May's Disabled payments set a category record, too, at $931,457 (+$14,299).

The Disabled growth was caused by greater Corrective Payments +$17,507 augmented by higher costs for Initials +$4,285 and Special Needs +$6,487. A greater refund and cancellation level +$11,089, however, lessened the impact of these changes. The focus of the Disabled increase was the rural counties, which posted a gain of $21,970, thereby masking the urban reduction of $7,756. The leaders of the rural advance were Cass ($7,473), Rice ($3,827), LeSueur ($3,345), Itasca ($3,308), Nobles ($2,581) and Pennington ($1,127) Counties.

The primary contributor to the Aged payment advance was the category of Special Needs which grew by $7,130 (84.1%) during the month to $15,606. Hennepin County alone was responsible for this increase by advancing $9,401 from $2,174 to $11,575.

General Assistance (GA) The total number of persons receiving GA for May 1984 was 23,705. This was 3,463 (17.1%) more than April 1984 and 12,622 (113.9%) more than May 1983. There has been growth in the GA program each month since January 1984. A part of this growth is due to persons who had received a MEED allowance through the Department of Economic Security but were unlikely to secure a job or unable to successfully perform a job available through the jobs program. Under these conditions, the MEED allowance is terminated and the person is referred to the local welfare agency. The average grant (gross dollars) per person for May 1984 was $213.40. This was $5.26 (2.4%) less than April 1984 and $5.64 (2.7%) more than May 1983. The average grant has declined each month since December 1983. This is due to the increase in cases not requiring costly out-of-home care. Persons who formally received a MEED allowance would be most likely to receive only the GA standard grant. Thus, an increase in these cases would produce a decline in the average grant.

Application activity increased compared to April 1984. The number of applications received was 2.6% higher and the total applications on hand increased by 1.3%. The number of applications disposed of increased by 2.1% to 6,804. Of these, 5,863 (86.2%) were approved.

The 5,863 cases added in May brought the total cases eligible to 27,913. This was an increase of 8.6% compared to April. Payments were made for 21,401 (76.7%) of the eligible cases. There were 4,117 cases closed which left 23,796 eligible cases continued to June.
